This large Greenway property extends along the river right for about a mile. There are multiple places to pull over, including flat gravel areas and a small backwater. Keep a close eye out for a small clearing with a mileage marker at RM 10.6 (no amenities).

(OPRD)

This makes a good put-in point for the lower stretch of the Coast Fork. It is a fairly isolated site, with a parking lot and a portable restroom. There is a short trail to a small beach area. The put-in is in moderate current. Just downstream is a bridge, and just beyond that is a small standing wave.

12

Watch for small chute with standing waves.
